January 2019

We started the year with special celebration of Saint Vasile and then Saint John. The beneficiaries carrying these names received presents, visitors and we made cakes and celebrated together like in a big family.

On 15th January we organised a cultural event for the celebration of the national cultural day and of the Romanian most famous poet Mihai Eminescu. The poet is known for beautiful poetry and many of our residents know by heart his creation.

The 24th January we organized an event based on history and discussed about the “small union”, when 2 large regions of old Romania got united in 1862.

We projected the film "Columna" (The Column) and then we discussed about the topic, action, actors, facts.

- The art and occupational therapy activities carried on according to the schedule under the direct coordination of our colleague Lili Bitleanu. She is a trained art therapist and her daily presence makes a big difference.

Training: 4 team members attended an interesting training session on "Socio – medical Public Policies" followed by "Advocacy in the health field". The training was organized by the Association for policy and advocacy from Bucharest under an European grant.
